

Not all princesses are born in a palace. This little Chi/Jack Russell was raised by a homeless couple.

At 7 years old Princess gave birth to pups and found herself in search of a new home; she found it with three friends who take turns caring for her permanently, in a real home with family, a bed fit for a princess and love.

However, as so often happens in fairy tales, there is a dark side to Princess' story. Princess has a spinal injury and needs surgery to live without pain and enjoy the life she has finally found.

Her family is working hard to raise the funds for Princess' care and For Paws Hospice is helping the family. Your generous gift can speed princess' recovery and bring a happy ending to this Princess Fairy Tale.

Send your donations by PayPal to for Paws Hospice. Please specify your gift is for Princess.
